Shariah Structure and Product Process

1 & 2. Investors purchase shares in Lifelong Capital Mortgage Investment Corporation (“**LCMIC**”).

3. The Investment is managed by Lifelong Capital Corporation (“**LCC**”) through a *Wakalah bil-Istithmar* (investment management) agreement.

4. LCC enters into a Sale and Purchase Agreement with Lifelong Group (“**LG**”), pursuant to which LG sells 75% share in property in consideration of the proceeds. A trust is declared on the properties by LCMIC and thereby acts as a trustee on behalf of the Investors who have beneficial ownership.

5. LG retain 25% equity and form a *Shirkatul Milk* (joint ownership) in the properties.

6. The properties are leased to tenants under an Ijarah (lease) agreement for periodic rental payments.

7. Rent is paid and distributed between the joint-owners of the properties.

8. A Wakalah service agency agreement is entered into between LG and LCC. LCC will arrange regulatory audits and filings, legal and audit fees, annual membership fees etc. Costs will be reimbursed for this with rent payments paid to LLC.

9 & 10. A construction agreement will be entered into between LG, whereby LG will build and make additions to the property.

11. If the properties need to be substituted, this will be performed through a substitution undertaking where the Administrator acts as an agent to perform this. After substitution, a new lease is entered into for the new property.

12. Upon maturity, LG will offer to purchase the shares in the property portfolio. This will end the lease and transfer the ownership of the portfolio to the LG.

13. The investors will receive the dissolution amount under the undertaking for the sale of equity in property.
